

	DESCRIPTION	ERROR TYPE
0	No error	Operating System
-34	Disk < name > is full	Operating System
-35	Disk < name > wasn't found	Operating System
-37	Bad name for file	Operating System
-38	File < name > wasn't open	Operating System
-39	End of file error	Operating System
-42	Too many files open	Operating System
-43	File < name > wasn't found	Operating System
-44	Disk < name > is write protected	Operating System
-45	File < name > is locked	Operating System
-46	Disk < name > is locked	Operating System
-47	File < name > is busy	Operating System
-48	Duplicate file name	Operating System
-49	File < name > is already open	Operating System
-50	Parameter error	Operating System
-51	File reference number error	Operating System
-61	File not open with write permission	Operating System
-108	Out of memory	Operating System
-120	Folder < name > wasn't found	Operating System
-124	Disk < name > is disconnected	Operating System
-128	User canceled	Operating System
-192	A resource wasn't found	Operating System
-600	Application isn't running	Operating System
-601	Not enough room to launch application with special requirements	Operating System
-602	Application is not 32-bit clean	Operating System
-605	More memory is needed than is specified in the size resource	Operating System
-606	Application is background-only	Operating System
-607	Buffer is too small	Operating System
-608	No outstanding high-level event	Operating System
-609	Connection is invalid	Operating System
-904	Not enough system memory to connect to remote application	Operating System
-905	Remote access is not allowed	Operating System
-906	< name > isn't running or program linking isn't enabled	Operating System
-915	Can't find remote machine	Operating System
-1700	Can't make some data into the expected type	Apple Event
-1701	Some parameter is missing for < commandName >	Apple Event
-1702	Some data could not be read	Apple Event
-1703	Some data was the wrong type	Apple Event
-1704	Some parameter was invalid	Apple Event
-1705	Operation involving a list item failed	Apple Event

-1706	Need a newer version of the AppleEvent manager	Apple Event
-1707	Event isn't an AppleEvent	Apple Event
-1708	< reference > doesn't understand the < commandName > message	Apple Event
-1709	AEResetTimer was passed an invalid reply	Apple Event
-1710	Invalid sending mode was passed	Apple Event
-1711	User canceled out of a wait loop for reply or receipt	Apple Event
-1712	AppleEvent timed out	Apple Event
-1713	No user interaction allowed	Apple Event
-1714	Wrong keyword for a special function	Apple Event
-1715	Some parameter wasn't understood	Apple Event
-1716	Unknown AppleEvent address type	Apple Event
-1717	The handler < identifier > is not defined	Apple Event
-1718	Reply has not yet arrived	Apple Event
-1719	Can't get < reference > . Invalid index	Apple Event
-1720	Invalid range	Apple Event
-1721	< expression > doesn't match < parameterNames > for < commandName >	Apple Event
-1723	Can't get < expression > . Access not allowed	Apple Event
-1725	Illegal logical operator called	Apple Event
-1726	Illegal comparison or logical	Apple Event
-1727	Expected a reference	Apple Event
-1728	Can't get < reference >	Apple Event
-1729	Object counting procedure returned a negative count	Apple Event
-1730	Container specified was an empty list	Apple Event
-1731	Unknown object type	Apple Event
-1750	Scripting component error	Apple Event
-1751	Invalid script id	Apple Event
-1752	Script doesn't seem to belong to AppleScript	Apple Event
-1753	Script error	Apple Event
-1754	Invalid selector given	Apple Event
-1755	Invalid access	Apple Event
-1756	Source not available	Apple Event
-1757	No such dialect	Apple Event
-1758	Data couldn't be read because its format is obsolete	Apple Event
-1759	Data couldn't be read because its format is too new	Apple Event
-1760	Recording is already on	Apple Event
-2701	Can't divide < number > by zero	AppleScript
-2702	The result of a numeric operation was too large	AppleScript
-2703	< reference > can't be launched because it is not an application	AppleScript
-2704	< reference > isn't scriptable	AppleScript
-2705	The application has a corrupted dictionary	AppleScript
-2706	Stack overflow	AppleScript
-2707	Internal table overflow	AppleScript

-2708	Attempt to create a value larger than the allowable size	AppleScript
-2709	Can't get the event dictionary	AppleScript
-2720	Can't both consider and ignore < attribute >	AppleScript
-2721	Can't perform operation on text longer than 32K bytes	AppleScript
-2729	Message size too large for the 7.0 Finder	AppleScript
-2740	A < language element > can't go after this < language element >	AppleScript
-2741	Expected < language element > but found < language element >	AppleScript
-2750	The < name > parameter is specified more than once	AppleScript
-2751	The < name > property is specified more than once	AppleScript
-2752	The < name > handler is specified more than once	AppleScript
-2753	The variable < name > is not defined	AppleScript
-2754	Can't declare < name > as both a local and global variable	AppleScript
-2755	Exit statement was not in a repeat loop	AppleScript
-2760	Tell statements are nested too deeply	AppleScript
-2761	< name > is illegal as a formal parameter	AppleScript
-2762	< name > is not a parameter name for the event < event >	AppleScript
-2763	No result was returned for some argument of this expression	AppleScript
-10000	AppleEvent handler failed	Apple Event Registry
-10001	A descriptor type mismatch occurred	Apple Event Registry
-10002	Invalid key form	Apple Event Registry
-10003	Can't set < object or data > to < object or data > . Access not allowed	Apple Event Registry
-10004	A privilege violation occurred	Apple Event Registry
-10005	The read operation wasn't allowed	Apple Event Registry
-10006	Can't set < object or data > to < object or data >	Apple Event Registry
-10007	The index of the event is too large to be valid	Apple Event Registry
-10008	The specified object is a property, not an element	Apple Event Registry
-10009	Can't supply the requested descriptor type for the data	Apple Event Registry
-10010	The AppleEvent handler can't handle objects of this class	Apple Event Registry
-10011	Couldn't handle command: not part of current transaction	Apple Event Registry
-10012	The transaction to which command belonged isn't valid	Apple Event Registry
-10013	There is no user selection	Apple Event Registry

-10014 Handler only handles single objects

Apple Event  
Registry

-10015 Can't undo the previous AppleEvent or user action

Apple Event  
Registry

-30720 Invalid date and time < date string >
